November 2011 Competitive Oil and Gas Lease Sale

Based on the analysis of potential environmental impacts contained in the attached environmental assessment, and considering the significance criteria in 40 CFR 1508.27, I have determined that leasing parcels UT1111-017, UT1111-018, UT1111-019, UT1111-020, UT1111-021 and UT1111-022, will not have a significant effect on the human environment other than those already analyzed and disclosed in the West Tavaputs Natural Gas Full-Field Development Plan Environmental Impact Statement (July 2010). After evaluating the WTP EIS, I have determined that it fully analyzed the effects of leasing and development on the abovementioned parcels and that there are no new circumstances or information that would substantially change the analysis. An environmental impact statement is therefore not required.

Based on the analysis of potential environmental impacts contained in the attached environmental assessment, and considering the significance criteria in 40 CFR 1508.27, I have determined that the Proposed Action, leasing of parcels UT1111-001, UT1111-002, and UT1111-005, will not have a significant effect on the human environment. An environmental impact statement is therefore not required.
